

Block Raffle

Using the fabric provided make one 12 X 12 (finished) block using only half-square triangles. Below are examples of the blocks you could make.

To make the half-square triangles: put together two $3\frac{7}{8}$ " squares, right sides to right sides, draw a line on the diagonal, sew $\frac{1}{4}$ " from the line on both sides, cut on the line.

Note: the squares included are 4", so you will have to trim them to size.
